Medical Information & Letter of Acceptance

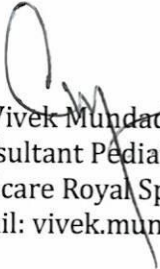

Name of the Patient:	Narek Grigoryan
Gender	Male
Date of Birth	27/03/2017
Name of the Physician in Host country	Dr. Vivek Mundada

The parents of Master **Narek Grigoryan**, has approached us and sought for Elevidys gene therapy at **Medcare Royal Hospital**.

After reviewing the genetic reports submitted by the parent, child is confirmed to have a neuromuscular condition called Duchenne muscular Dystrophy.

A mandatory lab test called AAVRh74 antibody titres was ordered which was negative. This makes Narek clinically suitable for Elevidys (delandistrogene moxeparvovec-rokl) Gene therapy.

Any further questions may be addressed to the undersigned.
